It has been some sort of a proposition to feed the big crowd of people on Arcadia Heights the past week and the butcher and the baker and grocer have been kept on the run.

Marvin, the little son of Mr. and Mrs. Thos. D. Jones, has been quite sick the past week with what the attending physician has diagnosed as diphtheria. He is reported as improving.

Otto Riecke has re-enlisted in the army and now is stationed with the 14th Cavalry at Jefferson Barracks. He expected to be sent to Honolulu but will remain at the Barracks for the present.

Mr. A. A. Lawton, with W. T. McCaskey & Co., of Lansing, Michigan, arrived in Ironton Tuesday and will at once begin active operations on our electric light plant. We are assured that the work will now be rushed to completion without more delay.

Chas. J. Newman, the painter, tells us that he never experienced as busy a season as this has proved. He has been rushed all summer and promises to be for a couple of months to come.

MADIGAN says: To convince a hungry man give him a Square Meal. If you are from Missouri and looking for Bargains I can "show you." MADIGAN'S, Hardware, south of Courthouse.

Mrs. Ferguson, who was thrown from a rig and quite seriously hurt on Arcadia Heights a couple of weeks ago, is now greatly improved and promises to suffer no permanent injuries from her misfortune.

County court adjourned Tuesday evening. The illness of County Treasurer Jones' little son detained him at home and an adjourned term of court will be held September 3d to settle with the Treasurer.

There were four socialist votes cast in Iron county at the primary election—two in Dent township and two in Liberty. On the Democratic ticket Dave Ball got twenty-two votes for Governor, Houchin 15 and Bolte 12.

Some one stole \$25 from Mrs. L. F. Aspley during the Encampment at Arcadia. Mrs. Aspley had the money in a hand satchel which she left in her tent. She was called away for a minute or two and when she returned the money was gone.

Mr. A. D. Robinson, formerly of Graniteville, and a young man well and favorably known in that community, is now located at Erin, Arkansas, where he is employed by a lumber firm. We wish him good luck in his new field.

The watermelon season is now on in this section of the country. The quality is excellent, the price good, but the yield is small. It seems the time is approaching when Southeast Missouri will lose its reputation as a watermelon producing section.—*Malden Merit*.

Star of the West Lodge, No. 133, A. F. & A. M., had a called meeting Saturday night for the purpose of conferring the third degree. About forty were in attendance, visitors being present from Bellevue and Middlebrook. A supper was served at White's after lodge.

The Republican vote in the primary election in Iron county on Tuesday of last week is not very complimentary to the local candidates. There were about 200 votes polled—unquestionable evidence that there was nobody on the ticket in whom the voters were greatly interested.

MOOTHART'S BUSINESS COLLEGE, De Soto, Mo., offers a complete course in BOOKKEEPING, SHORTHAND, TYPE-WRITING and BANKING. Established in 1899. Experienced teachers. For free catalogue, address H. C. JOHNSON, Principal, De Soto, Mo.

East Ironton, across the railroad track, is becoming quite a part of our town. Some of the most desirable homes in our little city are to be found there. The view is magnificent and site admirable. Take a walk over there some day and note the improvement. You will be surprised.

A couple of months ago a large mulberry tree in the yard of Wm. H. Delano during a storm. Mr. Delano had the tree cut up in cord wood lengths, preparatory to making stove wood of it. The other day he discovered on one of the timbers from the tree a twig laden with green mulberries. Can you beat it?

From the Farmington News: "Rev. W. R. McCormack writes us that he and Mrs. McCormack are spending a vacation of two weeks with their parents at De Soto. His congregation, which is Oakhurst M. E. Church, Kansas City, Mo., gave him a vacation of two weeks and also paid their expenses to and from Kansas City."

Ed. H. Amelung of New Albany, Indiana, was at Pilot Knob last week visiting relatives, and paid us a call Wednesday afternoon. We are always glad to see Ed, for he's always genial and looks on the bright side. A mighty good fellow to have around if you're inclined to be blue. Mr. Amelung left for his home Monday, taking his mother with him.

W. W. Martin and family left for Arcadia Heights Monday morning to attend the B. Y. P. U. convention which is in session there. Mr. Martin is the first vice president of the state organization and was notified that he would be in charge of the convention as the president cannot attend.—*Doniphan Prospect-News*.

Among those from here attending the Baptist Assembly at Arcadia Heights this week are the families of O. J. Mayberry, U. S. G. Evans, G. W. Morris, A. F. Davis and W. T. Hille. Mrs. Lavinia Butterfield and Miss Dorothy, Misses Anna Menge, Berta Hull and Bernice McCormick. Others are going the latter part of the week.—*Farmington News*.

The attendance on the Baptist Assembly this year is by far the largest in the history of Arcadia Heights. It is estimated that there are now located on the hill, at least, eight hundred people, which, with a large number of visitors every day, makes a big attendance. Fully three thousand persons were present at the morning service Sunday, when \$3,000 was subscribed for the improvement of the Assembly Grounds. The plan is to spend \$1,000 on a well. An expert well man has said that plenty of water can be secured for that amount. Rev. Truitt, who has charge of most of the services, is an exceptionally fine talker and interesting man.

Says the Flat River correspondent to the Farmington News: "Carol E. Norwine has recently erected a bungalow at Arcadia Heights, and, accompanied by Mrs. Norwine, expects to move there in a few days for the remainder of the summer. Mrs. Norwine has been in failing health for several months and her many friends hope that the change will prove beneficial."

Rev. J. B. McBride of Peniel, Texas, is here this week holding a meeting at the Holiness church. He is said to be one of the ablest ministers of that denomination and his sermons here have been highly praised by people of all denominations who have heard them. He is being assisted by Miss Margarette Mohard whose singing has delighted congregations in many states.—*Ellington Press*.

Dr. W. G. Patton arrived in Ironton from St. Louis Monday evening with a 3-passenger Buick automobile which he bought a couple of days previous. After an hour or so of experience in St. Louis Will had the nerve to run the machine here by himself. He had no trouble on the trip and shipped the car from here to Thayer, Mo., Tuesday. The Dr. says he has a fine practice and is doing well.

Mrs. Woodside left Monday afternoon for St. Louis where she will spend about ten days acquainting herself with the new fall styles in millinery and buy her fall stock. During her stay in the city Mrs. Woodside will be under the instruction of an expert designer from Paris, and when she returns the ladies may rest assured that she will have everything that is new and up-to-date in millinery for their inspection.

Arcadia Heights has not been able to entertain the people that have wanted to stay there the past week and some have been compelled to return home because of lack of accommodations. There are seventy-five people quartered at the Ozark Inn, and probably fifty have been turned away. There are more than one hundred tents on the hill filled to their capacity. The Heights is surely a popular place with our Baptist friends.

Mr. J. W. Clarkson writes us from Clark, Louisiana: "The REGISTER is the only paper I have taken continuously, any have read it since I was old enough to read anything, and I can surely recommend it to any and all for pure Democratic doctrines. I will be going through your town in a few days on a fast train, and only wish I could stop for a few days and see all of my old friends. Will leave Columbus, Ohio, the last of next week with a party of friends for a motor trip through Pennsylvania and New York."

Wm. J. Schwab is now train auditor on a branch of the Iron Mountain between Crossett and Lake Village, Arkansas. Mr. Schwab makes his home at Crossett, a town of about 2500 people. Mr. Schwab says they keep the streets of the town clean and it certainly does away with the dust. At first it was necessary to oil the streets three or four times a year and now once or twice a year suffices. It not only does away with the dust but abates the mud. He says he thinks we ought to give the oil a trial here in Ironton.

Again Fredericktown outnumbered all other places at the Arcadia Methodist encampment this year. There were about 75 from this place enrolled this year putting Fredericktown far in the lead of all other cities. St. Louis was next, numbering about 50. Were the roads first class between here and Arcadia there would be many more go than have gone this far.

Automobiles that run between here and there go by way of Farmington, making the run so much longer, more than twice the distance for a straight run.—*Fredericktown Tribune*.

TO SUBSCRIBERS.

Again we call the attention of subscribers to the REGISTER to the fact that under the ruling of the Post Office Department we are not permitted to mail the paper to any one who is more than twelve months in arrears. So, if you are delinquent, please pay up AT ONCE. If you do not, we will have to take your name from our list. We do not want to do that, but we have no alternative.

The ball game at Arcadia Sunday afternoon between the Valley and Mineral Point nines terminated in a row in the sixth inning. A base runner on the visiting team ran into the second base man of the Valley nine, Buryard of Piedmont, knocking a tooth out and rendering him unconscious. The umpire disqualified the runner and the Mineral Point club refused to go on with the game. The Valley boys say they regret the fact that the game was not finished, but believe the public realizes that they were in no way to blame. The score stood 4 to 2 in favor of Mineral Point.

That the iron mines in the vicinity of Greenville will soon resume operations is the opinion of many of those here who are interested in that industry. Due to the suspension of the St. Louis Blast Furnace where all of the local ore has been idle for over a year. Repeated efforts have been made to dispose of the ore elsewhere but all were unavailable due to the unfavorable freight rates to the eastern markets. The relief in sight, it is claimed, is the fact that the St. Louis Blast Furnace is

to be sold at sheriff's sale in St. Louis on August 16th and it is understood that a rich Pittsburg syndicate stand ready to buy it in and immediately resume operating it. Later, it is said, a new and much larger plant will be erected in St. Louis which will afford a continuous market for all of the iron ore mined in this state. Recent tests have proven that the southern ores, as the ores of Missouri and Alabama are classified, are much superior ores for steel rails than the ore of the lake regions. This has created a demand for the southern product and it is predicted that the large steel mills of the east will soon turn this way for their ore.—*Wayne County Journal*.

Judge G. O. Nations, defeated candidate for the Republican nomination for Prosecuting Attorney in the Primary Election in St. Francis county Tuesday last, it is said, will contest the election on the grounds that the judges of election at various precincts failed and refused to count a number of ballots that had been cast for him. The ballots which it is alleged the election officials failed to count contained the name of Judge Nations only, the voters scratching all the other Republican candidates. On the face of the returns Judge Nations was defeated by seven votes.

According to a report just issued by the Missouri Geological Survey there are millions of tons of iron ore in the Ozark region awaiting the miner's pick. According to this volume Missouri has a greater variety of iron ores than any State in the Mississippi valley and although mining has been carried on for over a century there are hundreds of deposits that have not been worked and which, if properly developed, can produce sufficient ore to support a large smelting industry. Missouri has produced 10,000,000 tons of iron ore, the mining camps being restricted largely to four producing areas, viz: (1) the granite region at Iron Mountain and Pilot Knob; (2) the central Ozarks; (3) the southeastern Ozark counties; (4) Green and Christian counties. Although Iron Mountain and Pilot Knob have produced more than 5,000,000 tons, these deposits still contain minable ore. Deposits in the central Ozarks are producing a high grade hematite; the Cherry Valley mines alone having produced over 700,000 tons. These deposits occur chiefly in Phelps, Dent, Crawford and Franklin counties. The brown ore, or limonites, of Southeast Missouri have not been mined extensively although hundreds of deposits dot the hillsides in Wayne, Howell, Oregon, Ripley, Shannon and Reynolds counties. Each of the various types of ore occurs under certain geologic conditions that have a direct bearing upon the methods of prospecting and development. The report, which contains over 500 pages, describes in detail just how each kind of ore occurs, and describes briefly over 800 known deposits. It contains a geologic map of the State and county maps showing the location of all deposits. This volume should be in the hands of those interested in iron lands or iron mining. Copies may be obtained by addressing H. A. Buehler, State Geologist, Rolla, Missouri. Enclose 35 cents to cover postage.

Des Arc.

I attended the Baptist Assembly at the Arcadia Heights Sunday. Over 1000 people were there. We had a fine sermon by Rev. Truitt of St. Louis. The collections were over \$3500; \$1500 were for this year's improvement and \$2000 for next year. They expect to bore a well, have electric lights, etc. The road to the Heights is much improved. It will pay anyone to attend these meetings. There were very few there from Des Arc and Piedmont. Chas. Hanes and family and others were there from Williamsville. Chas. Hanes is a whole-souled Baptist who lately joined the church. He gave \$100 to help the cause along. I wish we had some more Chas. Hanes in our church. May God bless him! Geo. W. Morris, T. P. Fitz and family are among the campers on the Hill. The singing was fine, they sing mostly old songs. I enjoyed it very much. I like to mingle with God's people. ISAAC.

We want to buy 500,000 red and white oak ties. Highest price paid in cash for every load. ARCADIA VALLEY BOT. CO., Arcadia, Mo.

Mr. Edgar Declines.

IRONTON, Mo. Aug. 10th, 1912. Editor Iron County Register—I notice from the certificates of the Judges of Election at Ironton and Pilot Knob that I have been elected a member of the Democratic Committee from the Township of Arcadia. I told my Democratic friends before the day of the Primary Election and on the day of said election that I would not serve as a member of the Democratic Committee, if elected. I wish to state that I decline this office. I make this announcement now that the organization of the Democratic Committee may not be delayed. I have earnestly desired for a number of years to escape the arduous duties of this office and free myself from the toil of an active campaign. Yours, truly, W. R. EDGAR.
